To whom it may concern

On behalf of GE Money Bank Russia we hereby declare that we have been testing the Queue Management System manufactured and installed by OOO ONLINET for a period of almost 3 months in Q3 and Q4 2007 in one of our service branches. After the successful implementation and adoption to GE standards the system is performing at our full satisfaction. We have made a decision to purchase the Q-Management system which is already installed in our service branch "Tishinka" and will enter into negotiations with OOO Onlinet about equipping additional branches with the system in 2008.
