

The perfect workforce

How many clients are you losing just because you do not have time for everybody? How many times do you repeat the same answers for the same questions in a day, instead of serving your real clients, ready to buy? Imagine that you have an employee, who answers all the questions of the visitors, serves your clients, never gets tired, never takes a coffee break and is always willing to work overtime.

SELF-SERVICE AND INFORMATION KIOSKS

➔ KIOSKS

➔ A NEW EMPLOYEE MEANS MORE WORK DONE AND MORE INCOME. MEANS MORE WAGES AND TAXES ALSO. WELL, SOMETIMES IT DOESN'T!

GROUP

Features and benefits

Master of routines

The main task of the kiosk is to provide information which eases the staff's work, handling most of the routine tasks. The staff could spend its valuable time with real customers, ready to buy, while the kiosk will serve the visitors and those with a general interest.

Ready for everything

The kiosk as an option can be equipped with printer, card reader, biometric or barcode reader, proximity sensor, webcam and speakers. In this way your customers will not only have access to information, but will be able to make transactions or to purchase using the kiosk.

Fast Lane for your customers

Some services required by customers can be handled quickly without the intervention of a human being. The kiosk makes possible for your customers to use a „fast lane“ when requiring your services. The queues will be shorter, the administration and service faster and the number of the served customers in day will increase exponentially.
